## How to set up

### 1. Create a Rokoko account

Set up your Rokoko account and redeem your voucher if you purchased a Plus or Pro plan.

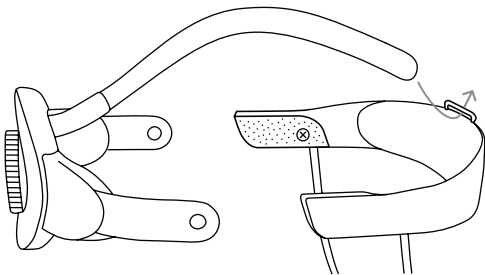

### 2. Assemble your Headrig

a) Pull the top strap that goes from the back part of the Headrig through the loop on the front part and secure it in place with the velcro.

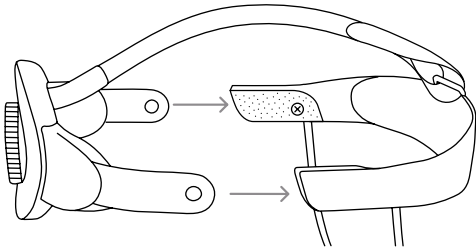

#### Disassemble

If you need to take your Headrig apart, follow the guide on [rokoko.co/headrig](https://rokoko.co/headrig)

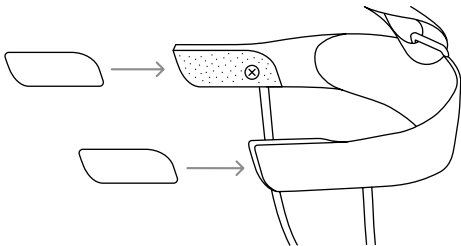

b) Slide and click the back-part into the front piece, ensuring that the top velcro strap is oriented on the top of the product as pictured.

### 3. Adjust the Headrig to fit you

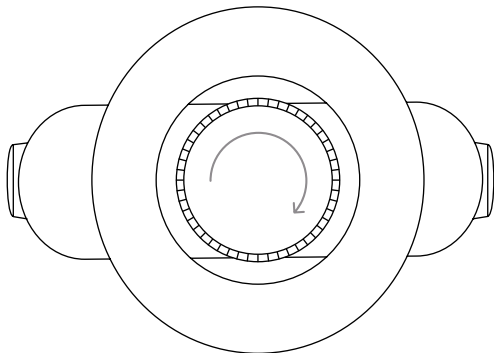

a) Find the most comfortable size of the side padding for your head size and shape and attach it to the insides of the Headrig.

b) Place the Headrig on your head.

c) Adjust the top velcro strap.

d) Adjust the tightening mechanism on the back.

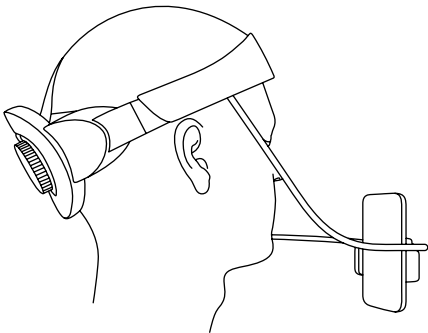

### Note of caution

Avoid using excessive force when adjusting the tightening mechanism.

#### 4. Place phone into the phone clamp

Make sure the Headrig sits on your head at an angle that allows the front camera to capture your face.
